

CARPET CARE CONCENTRATE

CARPET & UPHOLSTERY STAIN REMOVER

CARPET CARE CONCENTRATE is a unique polymer/surfactant detergent system for carpets and upholstery cleaning applications. Many carpet cleaning formulations are highly alkaline detergents that leave tacky, soil attracting residues on the carpet and remove some or all of the stain resistance built into the carpet by the manufacturer. A common complaint related to carpet and upholstery spot cleaners is that after removing a spot or stain from a fabric, it appears that the spot returns over the next few days or weeks, only bigger than the original stain. This is caused by the residual detergent left behind by the spot cleaner which now attracts oily and particulate soil. The stain did not come back, rather, there is a new soil induced stain appearing due to the soil attraction of the spot cleaner residue. Our **CARPET CARE CONCENTRATE** formulation eliminates these problems. Additionally, cleaning products based on these formulations actually enhance the soil and stain resistance of cleaned fabrics.

FOR USE BY:	FOR USE ON:	FEATURE-BENEFIT:
-------------	-------------	------------------

Auto Detailing	Carpets	Enhances Soil Pick-Up During Vacuuming
Marine Detailing	Upholstery	Anti-Soil Redeposit ION Properties
Shops	Fabrics	Enhanced Wetting and Penetration
Bars/Taverns		Outstanding Cleaning and Detergency Properties
Doctor Offices		Low VOC— Volatile Organic Compounds.
Hospitals		Environment and User Friendly
Hotels and Motels		Water Based
Nursing Homes		
Office Maint.		
Apartment Maint.		
Restaurants		
Schools		
Waiting Rooms		

DIRECTIONS:

FOR HOT WATER EXTRACTION: Use 8 to 16 ounces of product per gallon of hot water. **CARPET CARE** has the advantage over competitive products by having a proprietary blend of protectant/surfactants that not only clean but leave a protective coating that will retard re-soiling.

FOR SPOT CLEANING: Test on an inconspicuous area before using. **CARPET CARE** can be used as a spot cleaner without having to dilute. Spray area to be cleaned and wait 5 minutes before either cleaning with a hot water extractor or blotting with a damp clean porous cloth.

TECHNICAL DATA:

Appearance:	Clear Yellow Liquid
Odor:	Pleasant
Solubility in Water:	Total
VOC:	Low

Product Name: Carpet Care

Chemical Family: Aqueous anionic detergent polymer solution.

Section 1: Hazardous Ingredients

Contains Less than 16% glycol ether EB.

Section 2: Physical Data

Density: 1.03+/-0.02 g/ml

pH: 8.0 to 9.0

Water Solubility: Soluble

Boiling Point: 100° Centigrade

Appearance: Clear, pale yellow solution.

Odor: Mild citrus.

Section 3: Fire and Explosion

Flash Point: Greater than 200 ° F by PMCC

Extinguish Media: Water spray, foam, dry chemical or carbon dioxide

Special Procedures: Evacuate personnel to a safe area, avoid breathing decomposition products. Fire fighting personnel should wear respiratory protection.

Unusual Hazards: Emits toxic and corrosive fumes when burned.

Section 4: Reactivity Data

Chemical Stability: Stable

Polymerization: Will not occur.

Incompatibility: None

Decomposition: Thermal decomposition may produce oxides of carbon and sulfur.

Section 5: Health Information

Toxicity: Not acutely toxic.

Carcinogenicity: None of the components present in this material are listed by IARC, NTP or OSHA.

Exposure Limit: Not Established

Safety Precautions: Avoid excessive contact with eyes, skin, and clothing. Wash thoroughly after handling, especially before eating, drinking or smoking.

Section 6: Employee Protection

Engineering Controls: Use adequate ventilation. Vent fumes outside work area. Use NIOSH approved respirator if airborne concentrations pose a health hazard. Emergency showers and eye washes should be available in work area.

Eye Protection: Wear safety glasses or goggles.

Skin Protection: Wear impervious gloves and clothing suitable to prevent skin contact.

Other: Do not consume food, drink, or tobacco in areas where they may become contaminated by this material. Always wash hands thoroughly with soap and water before eating, drinking and smoking.

Section 7: First Aid

Inhalation: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult or respiratory tract is irritated, consult a physician.

Skin Contact: Remove contaminated clothing. Flush skin with mild soap and water.

Eye Contact: Flush eyes with plenty of water for at least 15 minutes and consult a physician if irritation persists.

Ingestion: Consult a physician.

Section 8: Disposal Information

Spill, Leak or Release: Contain spill and salvage as much material as possible. Pick up remaining product with absorbent.

Waste Disposal: Dispose of product only by methods approved by federal, state and local regulations.

Section 9: Storage

Store above 55 ° F. Keep container tightly closed.

Section 10: Transportation

DOT Proper Shipping Name: Not regulated

DOT/IMO Proper Shipping Name: Not regulated
