

WET ONE

SPREADER STICKER

WET ONE is a non-ionic surfactant and spray adjuvant. **WET ONE** helps the chemicals being sprayed stick or bond to the leaf surface without clogging the stomae which will slow down the absorption process. **WET ONE** allows the plants to breath unlike many other similar products. **WET ONE** reduces the time and frequency you have to spray radically reducing your cost. **WET ONE** will not burn plants. **WET ONE** will even hold spray material in place through rain and irrigation. **WET ONE** is safe with fungicides, insecticides, and herbicides as well as nutritional sprays.
